

Illinois Department of Revenue Schedule 1299-S

Enterprise Zones, Foreign Trade Zones, and Sub-Zones

Enterprise zones are economically distressed areas in Illinois, of 12 to 15 square miles, which qualify for special tax incentives once they are designated by the state and participating local governments.

Portions of the municipalities and counties listed below have been designated as enterprise zones. For further information about any particular zone, please contact the local zone administrator.

Foreign or "free" trade zones or sub-zones are secured areas legally outside a nation's customs territory. Their purpose is to attract and promote international trade or commerce. In Illinois, foreign trade zones are located in portions of Chicago, Granite City, Peoria, Rock Island, and Moline. If you need more information about a particular foreign trade zone, please call the contact person for the zone project.

For the name of your zone administrator or zone project contact person, you can call us at 1 800 732-8866, 217 782-3336, or the TDD-telecommunications device for the deaf 1 800 544-5304.
