Schedule CR Instructions

General Information

What is the purpose of Schedule CR?

Schedule CR allows you, as an Illinois resident, to take a credit against your Illinois income tax for the income tax you paid to another state. **You can take credit only when the same income is "double taxed" by Illinois and the other taxing jurisdiction during the same taxable period. This credit cannot be taken against replacement tax.**

Should I attach copies of other forms?

Yes. You must attach to your Schedule CR a complete copy of the tax return you filed for tax you paid to another state and a copy of your U.S. Form 1041, Page 1, with a detailed breakdown of the amount on U.S. Form 1041, Line 11.

If you are a partner in a partnership or a shareholder in an S corporation that pays taxes for you in another taxing jurisdiction, attach the statement furnished to you by them. The statement must include the name of the partnership or S corporation, indicate the taxing jurisdiction to which the tax was paid, your income and the tax paid on that income on your behalf.

Specific Instructions

Step 1: Provide the following information

Write your name and federal employer identification number as shown on Form IL-1041.

Step 2: Calculate your credit

Line 1 -

Column A - Write the name of each state in which you were taxed on income also taxed by Illinois. The state should only be listed if the income tax paid in the other state was for the same income included on Form IL-1041, Part I, Line 5, and credit has not been taken in that state (for taxes paid in Illinois).

Column B - Write the amount of base income that is being taxed by both Illinois and the state listed in Column A. For Illinois purposes, "base income in the other state" means your federal taxable income plus or minus any additions or subtractions that would make the income taxed in that state comparable to Illinois base income. The amount written in Column B may not exceed the Illinois base income written on Form IL-1041, Part I, Line 5, because any income in excess of the Illinois base income is not double taxed.

Column C - Write the tax that you paid the other state on income shown in Column B.

Line 2 - Write the amount of double-taxed base income on Line 2. If the same income is taxed by more than one state outside Illinois, include that income **only once** in Line 2. Line 2 may not exceed the Illinois base income reported on Form IL-1041, Part I, Line 5.

Lines 3 through 8 - Follow the instructions on Schedule CR.

EXAMPLE:

John Q. Public Trust was a resident of Illinois during the year. The base income of the trust, as shown on Form IL-1041, Part I, Line 5, was \$30,000.

Of that amount, \$5,000 was earned in State A, which imposed an income tax of \$150, and \$10,000 was earned in State B. The Public Trust paid \$500 in income taxes to State B.

This example shows Public Trust's properly completed Schedule CR.

The fiduciary attached copies of the returns of State A, State B, and U.S. Form 1041, Page 1, with a detailed breakdown of the amount on U.S. Form 1041, Line 11, to the Schedule CR.
