

Schedule M IL-1040 Instructions

General Information

What is the purpose of Schedule M?

Schedule M, Other Additions and Subtractions, allows you to figure the total amount of additions you must include on Form IL-1040, Individual Income Tax Return, Line 3 and subtractions you may claim on Form IL-1040, Line 9.

May I subtract my out-of-state income?

No, you may not subtract your out-of-state income. However, if you are filing as a resident or a part-year resident, you may be allowed to take a credit against Illinois Income Tax for income tax you paid to another state. See the instructions for Form IL-1040, Line 19, and Schedule CR, Credit for Tax Paid to Other States.

What other income is not allowed as a subtraction?

You may not subtract anything that is not listed on Schedule M. For example, you may not subtract

- unemployment compensation. Unemployment compensation included in your federal adjusted gross income is fully taxable to Illinois.
- gambling losses. Illinois does not allow a deduction for gambling losses.
- your federal itemized deductions from U.S. 1040 Schedule A, Itemized Deductions.
- any wages reported on your federal return. If you believe the wages reported on the Form W-2, Wage and Tax Statement,

you received from your employer are incorrect, you must obtain a corrected Form W-2 or a statement from your employer, on company letterhead, stating that your Form W-2 was incorrect. We will not accept a letter from you or your tax preparer.

What must I attach to Form IL-1040?

If you enter an amount on Form IL-1040, Line 3 or Line 9, you **must** attach Schedule M and any other required documentation listed in the "Step-by-Step Instructions" of this schedule to your Form IL-1040.
