# Schedule NLD Instructions

## General Information

### When must I use this schedule?

You must use this schedule to carry forward or back an Illinois net loss arising in tax years ending on or after December 31, 1986. An Illinois net loss deduction (NLD) can be used to reduce the base income allocable to Illinois **only** if the loss year return has been filed and to the extent the loss was not used to offset income from any other tax year. Corporations, **excluding S corporations**, that are members of a unitary group, must use Schedule UB/NLD, Unitary Net Loss Deduction to claim any NLD. All S corporations, including any that are members of a unitary group **must** use Schedule NLD.

**Note** If corrections have been made to the loss amount (e.g., federal audit or amended return), you must report the corrected amount when you file this schedule.

### What is the purpose of this schedule?

The purpose of Schedule NLD is to calculate your total amount of Illinois net loss available, the amount deductible for this year, and the remaining NLD available for use in other years.

### What are the limitations of the Illinois NLD?

For Illinois net losses in tax years **ending on or after December 31, 2003**, the carryback provision has been repealed. In addition, the carryforward period for net losses has been reduced to 12 years.

For tax years **ending on or after December 31, 1999**, and **before December 31, 2003**, all Illinois net losses must be carried back 2 years, (unless an election to only carry forward is made) then forward 20 years. The special rules under Internal Revenue Code (IRC) Section 172, and future amendments to that section, no longer apply to Illinois net losses. Also, no limitations under IRC Section 382, or the separate return limitation year provisions of the federal consolidated return regulations apply to an NLD carryover.

Illinois net losses in tax years **ending before December 31, 1999**, are allowed as a carryback or carryforward deduction only in the manner allowed under IRC Section 172, including, for example, the 10-year carryback allowed to banks for bad debt losses.

The following are the carryback and carryforward years generally allowed for Illinois net losses in tax years **ending before December 31, 1999**. Illinois net losses in tax years beginning

- after August 5, 1997, and ending before December 31, 1999, must be carried back 2 years, then forward 20 years.
- on or before August 5, 1997, must be carried back 3 years, then forward 15 years.

**Note** For tax years ending on or after December 31, 1996, and before tax years ending on or after December 31, 2003, you may make the election to forgo any of the previously mentioned Illinois NLD carryback periods by checking the appropriate box on your loss year return. This election must be made by the extended due date of your return and once made, this election is irrevocable.

### What must I attach?

You **must** attach Schedule NLD to your annual tax return. The department **may** require you to submit copies of the original loss year returns, front and back, amended returns, or audit reports reflecting the loss amounts that you are claiming on this schedule. Failure to submit requested information will result in processing delays.
