Add the totals from the 1299-A and the attachment and write the total on Schedule 1299-A, Line 3.

- placed qualified property in service in an Illinois enterprise zone or river edge redevelopment zone within the tax year,
- placed it in service on or after the date the zone was officially designated as an enterprise zone, and
- continued to use the qualified property on the last day of your tax year.

Qualified property can be new or used but does not qualify for the Enterprise Zone Investment Credit if it was previously used in Illinois in a manner that qualified for that credit or for the Replacement Tax Investment Credit on Form IL-477. Qualified property includes buildings, structural components of buildings, and signs that are real property. Any improvement or addition made on or after the date the enterprise zone was designated or the business was designated as a high impact business is considered to be qualified property to the extent that the improvement or addition increases the adjusted basis of the property previously placed in service in Illinois and otherwise meets the requirements of qualified property.

Column C — If you are using the federal accelerated cost recovery system (ACRS) to depreciate the property, write the ACRS class

assigned to each item of qualified property. Property assigned to an ACRS class of less than four years is not qualified.

If you are not using the ACRS method to depreciate the property, write the useful life assigned to the property for federal depreciation purposes. The useful life of the property when placed in service must be four or more years to qualify.

Column D — Indicate whether each item of qualified property is new or used. If the property was previously used, write the abbreviation of the state where the property was located.

Column E — Write the name of the enterprise zone in which the property is used.

Line 28 —

Column A — Describe each item of qualified property you placed in service in an Illinois river edge redevelopment zone.

Column B — Write the month and year each item of qualified property was placed in service in Illinois. An item is placed in service on the earlier of
