Discharge of Indebtedness Worksheet and Instructions

- | | |
|--|----------------|
| 1 Write the amount of the reduction to your federal net operating losses that was carried over to the tax year of the discharge (See federal Form 982). | 1 _____ |
| 2 Multiply the amount on Line 1 by your income allocation ratio. | 2 _____ |
| 3 Write the total amount of Illinois net loss carryovers from all loss years available to be carried to the taxable year of the discharge. | 3 _____ |
| 4 Write the lesser of Line 2 or Line 3. This is the amount of your loss carryover reduction. | 4 _____ |

Line 2 — Your income allocation ratio is calculated by dividing the amount of debt cancellation income excluded from your gross income that would have been allocated or apportioned to Illinois under the IITA if it was not excluded, by the total amount of debt cancellation income excluded from your gross income. If all of your debt cancellation income would have been business income, use the apportionment factor you calculated on the return for the tax year of the debt cancellation.

Line 3 — This is the amount of any net loss reported on Schedule NLD for a taxable year prior to the year of discharge that has not previously been carried back or forward. In determining this amount,

if you had positive base income allocable to Illinois in the tax year of the debt cancellation, you may first use any NOL carryovers available to be carried to that year in order to claim an Illinois NLD. Only the remaining unused loss carryovers to such year, if any, should be included on this line.

Line 4 — If Line 2 is less than Line 3, apply the loss carryover reduction from Line 4 to reduce (but not below \$0) the net operating loss carryover beginning with the earliest loss year, and continue in order until the entire loss carryover reduction has been applied. If Line 3 is less than Line 2, all of the net loss carryovers you reported on Line 3 are reduced to \$0.

Schedule NLD Instructions

General Information

When must I use this schedule?

Read first - If you are a corporation, other than an S corporation, you may not use your Illinois net loss deduction (NLD) for tax years ending on or after January 1, 2011, and before December 31, 2012. However, if you are required to reduce your available NLD due to discharge of indebtedness, you must still complete and attach Schedule NLD to your Illinois tax return. For more information, see "Discharge of Indebtedness Income" on Page 4.

You must use this schedule to carry forward or back an Illinois net loss arising in tax years ending on or after December 31, 1986. An Illinois net loss deduction (NLD) can be used to reduce the base income allocable to Illinois **only** if the loss year return has been filed and to the extent the loss was not used to offset income from any other tax year. Corporations, **excluding S corporations**, that are members of a unitary group, must use Illinois Schedule UB/NLD, Unitary Net Loss Deduction, to claim any NLD. All S corporations, including any that are members of a unitary group **must** use Illinois Schedule NLD.

Note → If corrections have been made to the loss amount (e.g., federal audit or amended return), you must report the corrected amount when you file this schedule.

What is the purpose of this schedule?

The purpose of Illinois Schedule NLD is to calculate your total amount of Illinois net loss available, the amount deductible for this year, and the remaining NLD available for use in other years.

What are the limitations of the Illinois NLD?

For Illinois net losses in tax years **ending on or after December 31, 2003**, Illinois net losses can no longer be carried back, and can only be carried forward for 12 years.

For tax years **ending on or after December 31, 1999, and before December 31, 2003**, all Illinois net losses must be carried back 2 years, (unless an election to only carry forward is made) then forward 20 years. The special rules under Internal Revenue Code (IRC) Section 172, and future amendments to that section, no longer apply to Illinois net losses. Also, no limitations under IRC Section 382, or the separate return limitation year provisions of the federal consolidated return regulations apply to an Illinois NLD carryover.

Illinois net losses in tax years **ending before December 31, 1999**, are allowed as a carryback or carryforward deduction only in the manner allowed under IRC Section 172, including, for example, the 10-year carryback allowed to banks for bad debt losses.

The following are the carryback and carryforward years generally allowed for Illinois net losses in tax years **ending before December 31, 1999**. Illinois net losses in tax years beginning

- after August 5, 1997, and ending before December 31, 1999, must be carried back 2 years, then forward 20 years.
- on or before August 5, 1997, must be carried back 3 years, then forward 15 years.

Note → For tax years ending on or after December 31, 1996, and before December 31, 2003, you may make the election to forgo any of the previously mentioned Illinois NLD carryback periods by checking the appropriate box on your loss year return. This election must be made by the extended due date of your return and once made, is irrevocable.

Special Note → **Corporations and trusts.** If you are a corporation (other than an S corporation) or trust, and you were required to reduce or eliminate a federal net operating loss carryover because you had discharge of indebtedness income, you may be required to reduce or eliminate your Illinois net operating loss carryovers. This reduction may be required if you had discharge of indebtedness income excluded

from your federal gross income for any taxable year ending on and after December 31, 2008. See the instructions for Line 2a through 2c. If you were required to reduce a federal net operating loss for the year of the discharge, you may have been required to reduce any Illinois net loss you incurred for the same year. This reduction is made on the Illinois income tax return you filed for the loss year. See the appropriate return instructions for your loss year.

What must I attach?

You **must** attach Schedule NLD to your annual tax return. The department **may** require you to submit complete copies of the original loss year returns, amended returns, or audit reports reflecting the loss amounts that you are claiming on this schedule. Failure to submit requested information will result in processing delays.

Discharge of Indebtedness Income — If you excluded discharge of indebtedness income in a prior tax year from your federal gross income, then you are required to reduce your Illinois net operating loss carryovers. The loss is treated as previously used in Illinois. This reduction applies to Illinois loss carryovers to the tax year of the debt cancellation only if a reduction was made under the Internal Revenue Code to any federal net operating loss carryovers you had to that tax year. Use the worksheet on the back of Schedule NLD to calculate the amount of reduction. Report the reduction on Lines 2a through 2c by writing “IITA 207(c)” in place of the month and year to which the loss was previously carried and include the amount of reduction calculated below as Illinois net loss previously used. Attach a copy of your federal Form 982, Reduction of Tax Attributes Due to Discharge of Indebtedness, to your Schedule NLD. For more information, see department Regulations Section 100.2310(c).

Note → If the loss has been carried to more than three years and additional space is needed, complete and attach an additional Illinois Schedule NLD.

Line 4 — Write the amount of base income allocable to Illinois for the carry year. See Line 1 instructions for the appropriate line reference for your return type. If you are submitting this schedule as support for an amended return, write the amount shown on

If this is a negative amount, you **should not** be using Schedule NLD.

Lines 5 and 6 — Follow the instructions on the form.

Line 7 — Subtract Line 5 from Line 3. **Do not** write this amount on this year's return. This is your remaining NLD to be carried to subsequent years.

Note → If there is an NLD remaining **after** this year (Line 7 is greater than zero), the amount on Line 5 must be included on any subsequent year's Schedule NLD, Line 2.

Columns B and C — Complete all lines of the columns as needed for additional Illinois net loss years.

Lines 1 through 3 — Follow the instructions for Column A.
