

Township / Multi-township Certification

The department is required under Sections 2-45 and 2-50 of the Property Tax Code (35 ILCS 200/2-45 and 2-50) to certify assessor pre-election assessor education requirements to each township clerk and county clerk by February 1 of the year prior to the election. All candidates for the offices of township and multi-township assessor must satisfy pre-election qualifications based upon the equalized assessed value (EAV) of property in their assessment district.

Newly formed Multi-township Assessment Districts (MTADs) are indicated as such on the certification below. The new MTADs become effective 1/1/2026.

Please note that under Section 2-45 a candidate must file a certificate of his or her educational qualification with the township or multi-township clerk, the board of election commissioners, or other appropriate election authority **prior to appointment, contract, or filing nominating papers or participating as a candidate in any caucus, primary, or general election for the office of township or multi-township assessor**. If the certificate of educational qualification is not filed, the election authority must refuse to certify the name of the candidate to the proper election officials.

Township and multi-township boards may petition the department for a revision of these pre-election qualifications under Section 2-52 of the Property Tax Code (35 ILCS 200/2-52). The petition process is described in the administrative rule (Section 110.162). This rule is available on the department's website at the address below.
