

General Information Letter: A request to use separate accounting cannot be granted without some evidence of distortion.

December 21, 2011

Dear:

This is in response to your letter dated December 15, 2011, in which you request permission for the above-listed taxpayers to use separate accounting rather than the statutorily-mandated apportionment formula, pursuant to Section 304(f) of the Illinois Income Tax Act (the "IITA"; 35 ILCS 101 *et seq.*). The nature of your letter and the information you have provided require that we respond with a General Information Letter, which is designed to provide general information, is not a statement of Department policy and is not binding on the Department. See 86 Ill. Adm. Code 1200.120(b) and (c), which may be found on the Department's web site at www.revenue.state.il.us. For the reasons discussed below, your petition cannot be granted at this time.

In your letter you have stated the following:

On behalf of our client, the above named taxpayer, we are requesting the use of separate accounting, under ILTA Section 304(f), for the attached entity's which may or may not have a filing requirement in the state of Illinois in the following tax years. In order to accurately reflect state income and losses, we are requesting to apportion income and losses using the separate books and records method of accounting. The only activities any of the entity's (See Attached List) could have in the state of Illinois consist of selling properties sold within the state.

Response

Section 304(f) of the IITA provides:

If the allocation and apportionment provisions of subsections (a) through (e) and of subsection (h) do not fairly represent the extent of a person's business activity in this State, the person may petition for, or the Director may require, in respect of all or any part of the person's business activity, if reasonable:

- (1) Separate accounting;
- (2) The exclusion of any one or more factors;
- (3) The inclusion of one or more additional factors which will fairly represent the person's business activities in this State; or
- (4) The employment of any other method to effectuate an equitable allocation and apportionment of the person's business income.

Taxpayers who wish to use an alternative method of apportionment under this provision are required to file a petition complying with the requirements of 86 Ill. Adm. Code Section 100.3390, which may be found on the Department's web site at www.iltax.com. 86 Ill. Adm. Code Section 100.3390(c) provides:

A departure from the required apportionment method is allowed only where such methods do not accurately and fairly reflect business activity in Illinois. An alternative apportionment method may not be invoked, either by the Director or by a taxpayer, merely because it reaches a different apportionment percentage than the required statutory formula. However, if the application of the statutory formula will lead to a grossly distorted result in a particular case, a fair and accurate alternative method is appropriate. The party (the Director or the taxpayer) seeking to utilize an alternative apportionment method has the burden of going forward with the evidence and proving by clear and cogent evidence that the statutory formula results in the taxation of extraterritorial values and operates unreasonably and arbitrarily in attributing to Illinois a percentage of income which is out of all proportion to the business transacted in this State. In addition, the party seeking to use an alternative apportionment formula must go forward with the evidence and prove that the proposed alternative apportionment method fairly and accurately apportions income to Illinois based upon business activity in this State.

Your petition does not meet the requirements of this provision, and so cannot be granted at this time. You will need to supplement your petition to meet these requirements.

Please note that 86 Ill. Adm. Code Section 100.3390(e)(1) requires a petition to be filed at least 120 days prior to the due date (including extensions) for the first return for which permission is sought to use the alternative apportionment method. A petition filed December 15, 2011 will allow a taxpayer to use the requested method on original returns due on or after April 13, 2012, if granted.

As stated above, this is a general information letter which does not constitute a statement of policy that applies, interprets or prescribes the tax laws, and it is not binding on the Department. If you still believe that your petition should be granted, please supplement the petition in accordance with the provisions of 86 Ill. Adm. Code Section 100.3390. If you have any questions, you may contact me at (217) 524-3951.

Sincerely,

Paul S. Caselton
Deputy General Counsel -- Income Tax
