David Harris, Director

Summary of Sales Tax Rate Changes for Aviation Fuel, Effective July 1, 2024

To: Registered retailers of aviation fuel in taxing jurisdictions whose tax rate is changing

This bulletin is written to inform you of recent changes; it does not replace statutes, rules and regulations, or court decisions.

Local government units are required to certify to the Illinois Department of Transportation by April 1 each year whether they have an “airport-related purpose” (35 ILCS 120/2-22). This certification allows the retailers’ occupation tax and service occupation tax imposed by the local government and administered by the Illinois Department of Revenue (IDOR) to include tax on aviation fuel. This informational bulletin provides a list of the changes in local sales tax rates on aviation fuel that take effect in certain taxing jurisdictions on July 1, 2024, due to the certification requirement.
